

Rice (Asian Style)

2 CUPS WHITE LONG GRAIN RICE

WATER

1 TSP. SALT

Rinse rice well 5 times. Place rice in a pot, add water until there is 1 inch of water over top of rice! Bring to boil and add salt. Boil for 15 minutes. Turn heat down to simmer, cover, and cook 10 more minutes then turn off. Keep covered until ready to serve, then fluff with a fork.

Rinsing rice 5 times makes it less starchy and keeps it from being sticky.
